Ren Plastics is a subsidiary of Ciba-Geigy Corporation of Ardsley, New York. The Ren Plastics Dawn Avenue site is an active chemical manufacturing facility located in East Lansing, Michigan. The site was originally identified by the Michigan Department of Natural resources in the form of a Preliminary Assessment submitted to the U.S. EPA.

In 1982, Ciba-Geigy filed a Part A RCRA application with the U.S. EPA. RCRA status was confirmed in a telephone conversation with Michael Hoskins of RCRA, U.S. EPA Region 5.

Since this site is fully covered by a RCRA permit, it does not warrant any further involvement under CERCLA and an HRS score will not be determined.
